

The 4-H program began as a series of clubs for boys and girls in rural America. The 4-H taught young people a variety of skills related to farming by using a learning-by-doing strategy. The program has grown tremendously in scope and today encompasses a broad range of subjects, but hands-on learning remains at the center of the 4-H.

Another constant for the 4-H is the organization's continued commitment to the 4-H's in its name—Head, Heart, Hands and Health. For 100 years this organization has provided opportunities for thousands of young people in my district and my state and to millions across the country. The 4-H teaches young people the importance of learning, kindness, a healthy lifestyle and helping one's neighbors. Those are great characteristics to instill in our young people.

In my state of Connecticut, New London County's 4-H camp was founded in 1947 on 24.5 acres, in Franklin, as an education and recreational facility. The camp is open to any and all youth ages 16 to 17, and campers do not have to be members of the 4-H to attend. The camp provides these young people with an experience in group living in the great outdoors. Through a wide variety of activities that focus on self-development, environmental awareness and a concern for safety and health, campers develop a greater understanding of themselves, others and the world around them.

The Middlesex County 4-H camp was established in 1962, on 90 acres in Moodus. This educational/recreational facility offers a mixture of traditional camping and innovative programs for young people. A variety of camp sessions offer programs for children between the ages of 7 and 14 and a Teen Camp is available for youths ages 13 to 16. From traditional sports to horsemanship to archery and creative arts, the camp achieves its mission to strengthen and uplift the youth's social, mental and physical development.

The Windham-Tolland 4-H camp has served families since 1954. Located in Pomfret Center, the camp's 270 acres contains woodlands, cabins, recreational areas and a beautiful lake. Campers enjoy a variety of sports, arts and crafts, woodworking, canoeing and campouts. Like all 4-H camps, the staff at Windham-Tolland focuses on fostering leadership skills, enhancing self-esteem and increasing each camper's individual potential.

In Connecticut, and across our nation, the 4-H continues to exemplify the very best of our youth and of America. I am pleased to wish them a Happy 100th Birthday.

TRIBUTE TO THE JET PROPULSION LABORATORY

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 26, 2002

Mr. SCHIFF. Mr. Speaker, it is my pleasure to rise today to honor the Jet Propulsion Laboratory, located in California's 27th Congressional District, and pay tribute to for the enormous success of the Voyager Mission. On September 7, 2002, JPL will celebrate the 25th Anniversary of the Voyager Mission—one of America's most successful space exploration endeavors.

In the summer of 1977, the Jet Propulsion Laboratory launched twin spacecrafts, Voyager 1 and Voyager 2 on a mission to conduct close-up studies of Jupiter and Saturn, Saturn's rings and the larger moons of the two planets. In order to accomplish this mission, the spacecraft were built to last five years, but as the mission went on, and with the successful achievement of all of its objectives, the additional studies of the two outermost giant planets, Uranus and Neptune, proved possible. Thus, their two planet mission became four and their five year lifetime expectancy has stretched to 25 years and more.

At the final completion of their mission, Voyager 1 and 2 will have explored all the giant outer planets of our solar system, 48 of their moons, and the unique systems of rings and magnetic fields those planets possess. Currently, the two Voyagers are headed towards the outer boundary of the solar system at a speed that would move them from New York to Los Angeles in less than four minutes. They are in search of the heliopause—the region where the Sun's influence gives way to interstellar space. The heliopause has never been reached by any spacecraft; the Voyagers may be the first to pass through this region, which is thought to exist somewhere from 5 to 14 billion miles from the Sun.

The accomplishments of the Voyager Mission are a testament to 25 years of excellence by the staff at the Jet Propulsion Laboratory. From the scientists that worked on the mission in 1977 to today's mission specialists, JPL staff has shepherded Voyager to the farthest reaches of our solar system and in the process Voyager has unlocked mysteries that have revolutionized the science of planetary astronomy.

I ask all Members to please join me in congratulating the Jet Propulsion Laboratory on the 25th Anniversary of the Voyager Mission. It stands as a shining example of American ingenuity and our commitment to exploring and understanding the far reaches of our solar system.

HONORING SRI LANKA PRIME MINISTER RANIL WICKREMESINGHE

HON. FRANK PALLONE, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, July 26, 2002

Mr. PALLONE. Mr. Speaker, I would like to take this opportunity to express my warm regards towards the Honorable Ranil Wickremesinghe, Prime Minister of Sri Lanka. His visit this week to the United States, the first visit by a Sri Lankan leader since a civil war broke out 19 years ago, confirmed that Sri Lanka is a valued friend and partner of the United States and an important ally in the campaign against international terrorism. The United States and Sri Lanka have enjoyed a strong friendship based on common values such as democracy and religious freedom.

For the past 19 years, there has been civil strife between the Government of Sri Lanka and the Liberation Tigers of Tamil Eelam (LTTE) that has unfortunately cost an estimated 65,000 lives and displaced an estimated 1,000,000 lives. In a breakthrough brokered by Norway, the Government of Sri Lanka and the Liberation Tigers of Tamil Eelam (LTTE), an agreement on a cease-fire was signed by both parties and went into effect February 23, 2002.

These peace talks are set to begin in August in Thailand and at this time, I would like to commend the Prime Minister of Sri Lanka for his great effort to steer his country towards peace talks and for working on resolving the current conflict at the negotiating table with LTTE leader, Velupillai Prabhakaran. I applaud the Prime Minister's belief that a comprehensive and lasting peace solution is a priority and I support his denunciation of all political violence and acts of terrorism in Sri Lanka.

During talks this week between President Bush and Prime Minister Wickremesinghe, the Prime Minister emphasized that consistent U.S. diplomacy and international assistance will be critical in ensuring peace in Sri Lanka. In addition, the Prime Minister requested expansion of a military training program and improved economic ties between the U.S. and Sri Lanka.
